# Program

THE  
**CYBER  
RESILIENCE  
CENTRE**  
FOR THE NORTH WEST

**TEST YOUR RESILIENCE**  
**TRAIN YOUR STAFF**  
**PROTECT YOUR BUSINESS**

# > A Fully Funded Program to support 300 businesses in Greater Manchester from online crime.

During the last 18 months, 38% of small businesses experienced cyberattacks at an average cost of £8,450.

This dedicated programme will help sole traders, micro-businesses and SME'S through education, training and 1-2-1 support

**TEST YOUR RESILIENCE**  
**TRAIN YOUR STAFF**  
**PROTECT YOUR BUSINESS**

**We exist to help protect  
small businesses from  
online crime.**

**Neil Jones**

Detective Superintendent | Greater Manchester Police  
Managing Director | NWCRC

## > Who is this program for?

Any sole traders, micro's and SME'S based within Greater Manchester can apply.

You do not have to be a company that operates online to access the support.

Many types of businesses want to protect their staff, their company and customers data. At a time when many businesses have moved online during the pandemic it's important we're all aware of the threats from online crime.

## > What is required to take a place on the program?

A deep understanding of cyber security, online or digital technology is not needed.

The Cyber Resilience Centre's role is to help educate your staff and help you to increase awareness of the latest cyber threats that come with operating online and provide practical support to help protect your businesses from online crime.

# > What's Included?

## Security Awareness Training

This training ensures your staff are the strongest defence against cyber attacks by equipping them with the information they need to identify, report and stop any attempts before any damage can be done.

## Business Starter Membership

This 12-month membership ensures your staff are the strongest defence against cyber attacks by equipping them with the information they need to identify, report and stop any attempts before any damage can be done.

## 1-2-1 Security Consultation

This consultation allows us to work with you to review what current security measures you have in place, answer any questions you have about cyber security and work with you to create a plan for how to monitor and secure your digital footprint.

## Cyber Security Policy & Procedure Templates

This documentation ensures your business has the most recent cybersecurity policies and procedures in place. Designed by our Cyber Security Consultants to help staff ensure you have a clear security strategy and can respond efficiently if an incident occurs.
